Allocation for Research and development on the distribution Figure 1 , is represented by Development, research, Ecosystem & partnership on this table.						

Table 1.

Private Sale:

1% Allocation of Total Supply:

The first round of a pool for private investors will be opened, where 100,000,000 eVESTX will be sold at 10% discount, fiat value of \$0.006165 according to the vesting model. During the TGE, 10,000,000 eVESTX will be available (10% of Pre-sale volume). After 1-month cliff, ≈ 150,000 eVESTX will be released daily for 20 months.

Airdrops:

0,5% Allocation of Total Supply:

To gain new users and increase the social engagement to our channels and project, 50,000,000 eVESTX has been mapped out for airdrop events. participants can receive:

- Task Reward: 2,000 eVESTX = \$13.00 for simply following our media channels
- Referral Rewards: 400 eVESTX = \$2.60 per new user referred to join our community.

At the expiration of the airdrop period, 5,000,000 eVESTX (10% of Airdrop volume) will be made available for first distribution at TGE. After a 6-months cliff, a 20-months vesting period will be implemented to distribute $\approx 125,000$ eVESTX daily to participants wallets.

Dex LaunchPad:

2% Allocation of Total Supply:

A total of 200,000,000 eVESTX has been marked for IDO. It will be offered at \$0.0065, a discount of 5%. After the IDO 30,000,000 eVESTX (15% of the IDO volume) will be available at TGE. After 1-month cliff, $\approx 472,222$ eVESTX will be distributed daily according to the vesting model to investors.

Liquidity & Marketing:

3,5% Allocation of Total Supply:

The fund is to support trade liquidity; continue placement of publications & advertising on various Advertising platforms; engage twitter, YouTube and Instagram influencers, and bloggers, affiliate Programs and other social promoters. The fund will be 100% available at TGE.

Special Swap Airdrop:

3% Allocation of Total Supply:

The VestXHybrid blockchain is offering a special swap airdrop, applied based on ratio 10:1 (10 VestXcoin to 1 eVESTX coin) to the VestX coin community. At TGE 5% (300,000,000 eVESTX) will be released. And after 1-month cliff, a 24-months vesting model distribution of $\approx 3,750,000$ eVESTX daily will be activated.

Team Fund:

10% Allocation of Total Supply:

There is no fund at TGE. After 3-months cliff, the team fund of 1 billion will be evenly distributed over 18 months, at $\approx 1,851,852$ eVESTX daily.

Advisors & Legal Fund:

2% Allocation of Total Supply:

Advisors & Legal funds aimed at distributing coins among our partners - industry experts, who have a direct influence on the development of the project, its improvement and community building & expansion. There is no coin available at TGE. After 3-months cliff, a 20-months vesting model distribution of $\approx 333,333$ eVESTX daily will be activated.

Research & Development:

For supporting Research and development of the project. The management of the fund will be in terms of the cliff and vesting model. The allocation within the fund is split into the following groups:

Development: 7.5 % Allocation of Total Supply:

Fund aimed at development of new user cases in line with the vision, mission, and the roadmap of the project.

Research: 5% Allocation of Total Supply:

Fund aimed at research of news technologies that will aid the progressive expansion of the project.

Ecosystem: 5% Allocation of Total Supply:

For supporting the ecosystem of the project including maintenance of the platforms, and all activities aimed at expanding the ecosystem of the project.

Partnerships: 2.5% Allocation of Total Supply:

A fund aimed at building advantageous business relations with companies and projects that will open access to new markets.
